Gypsum Ceiling Tiles

Laminated Gypsum Tiles For Ceiling

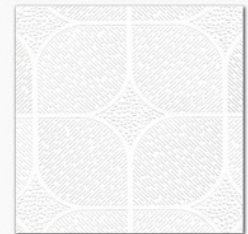

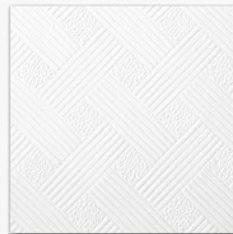

**OSMA
BOARD**

Variety of Solutions

As Osman Group's policy to be always a pioneer in the construction industry in Egypt , we decided to establish Egypt's first local gypsum tiles factory.

Osmason complex is committed to build long term relationships through extra ordinary service and products that consistently meet our customers highest standards. We provide solutions based on innovation delivered by the most qualified people.

*New design ideas upon client request

Osmaboard PVC laminated gypsum tiles are suitable for concealing mechanical, electrical pipes and cabling as well as air condition ducts. The elegant designs are eye catching and offer a wide variety for decoration. Osmaboard ceiling tiles have aluminum foil laminated back that protects the tiles from moisture and dew.
